PREFACE.

The publishers take pleasure in presenting to the public the second number of their Astoria City and Clatsop County Directory, in which is included directories of those towns in the State of Washington with which Astoria is in close communication.

Through our numerous and extensive eastern houses and our liberal system of exchanges, we give this book a permanent and valuable circulation all over the United States by placing a copy in all the great directory libraries of the country. For this reason we have included an able and exhaustive description of Astoria and its resources.

To the business men of this city and county who have given us their assistance and patronage, we return our hearty thanks.

R. L. POLK & Co.

ASTORIA, OREGON

AT THE MOUTH OF THE
COLUMBIA RIVER

The Only Fresh Water Harbor in the World that is Within Ten Miles of the Ocean.

THE GREAT
GATEWAY OF THE NORTHWEST
TO THE ORIENT.

Possesses the Most Natural Advantages for Investment of any City on the Pacific Coast.

Read carefully the following information.
For further particulars address Chamber of Commerce.

Astoria, Oregon, on the Columbia River, the only deep, fresh water seaport in the United States, ten miles from the ocean.

Portland, on the Willamette River, 110 miles from the ocean.

ASTORIA

The county seat of Clatsop County, was founded by John Jacob Astor and made the principal station for the Northwest Fur Company, of which he was the principal owner, in 1811. It was the first American settlement on the Pacific Coast, and its early history is weird and interesting, as those who have read Washington Irving's "Astoria," and the record of the Lewis and Clark expedition early in the century just closed can attest.

Astoria is situated on the north side of a peninsula, which is about one and one-fourth miles in width and two and one-half miles long, extending from the mainland down to the junction of Young's Bay and the Columbia River. Running parallel with the city proper is a water frontage extending a distance of five miles (this frontage will be extended and an additional five miles will be added when Flavel, New Astoria and Warrenton are bristling with wharves and warehouses), where deep water vessels can lie at the various wharves or anchor in the stream. Here is the customs port for the district of Oregon. The government has erected a substantial stone structure for the use of the customs and postoffice officials.

Five or six lines of steamers owned in Astoria ply daily to ports, rivers and bays in the vicinity. Three daily lines of steamers connect Astoria with Portland, and ocean steamers to San Francisco, Alaska, China and Japan go out several times each month at stated intervals. The city is connected direct by rail with all places of importance in the United States and Canada, and is on the gravity and shortest route from London, Liverpool, New York and

Atlantic seaboard to Japan, China and the Islands of the Pacific Coast.

Astoria is also a large distributing point for passengers and freight for Shoalwater Bay, Gray's Harbor and other points in Western Washington, and for Tillamook and Nehalem in Oregon.

Among Astoria's industrial institutions are two iron and machine shops, two foundries, one saw mill, two box factories, one can factory, four salmon canneries, four cold storage plants for fish, one brewery and ice plant, two ship and boat building shops, one fish oil factory, one creamery, bottling works, bakeries and numerous small manufacturies. It has electric street car line, and gas and electric light plants.

Astoria's water system, completed in 1896 at a cost of $260,000, has proved very successful. The capacity is about 4,000,000 gallons daily. The water comes 12 miles by gravity from a mountain stream and a lake having an elevation of 600 feet, and flows into a 6,000,000 gallon reservoir located 285 feet above the water front. From the reservoir the water is distributed by iron mains to every section of the city. Fire hydrants have been put up on every street corner in the principal part of the city. As a result of this improvement in the fire protection, insurance rates have been materially reduced. Astoria has a water supply sufficient for many times her present population.

The completion of the government jetty at Point Adams, extending four miles into the ocean, has practically annihilated the once "dreaded" Columbia River bar.

For the investment of capital for saw mills, flour mills, shingle mills, manila, hemp, twine and cotton rope and cord factories, furniture, sash and door, tub and bucket factories, and for the manufacture of goods wanted in the market of the Orient, Astoria is the best point on the Pacific Coast. It is only ten miles from the ocean and will be the place where "ocean meets rail" for the trans-shipment of

AMONG THE BIG TREES.

ASTORIA, OREGON.—Lin

Up the Columbia River.

ROYAL CHINOOK SALMON.

produce and manufactured goods from trans-continental American Railroads, and wares and products of the Orient from trans-Pacific liners.

Its churches are Catholic, Methodist, Episcopal, Baptist, Presbyterian, Congregational, Lutheran, Norwegian Methodist, Russian Lutheran, German Reform, Russian Finnish and Finnish Church.

Its Hospital, St. Mary's, is in charge of the Sisters of Charity.

The public schools have thirty teachers and the number of children of school age in the city is twenty-six hundred. Has also three private schools, one of which is a kindergarten. Fisher's Opera House has six hundred seating capacity. The newspapers published are the Astorian, News and Budget, (daily); the Astorian, News, Budget, Herald, Pacific Herald and Lannetar (weekly).

PICTURESQUE ASTORIA.

From any point of view, whether from the river or from the verandas of numerous cosy residences perched upon the hillside, Astoria is unique and picturesque, and the eye is delighted with its varied and charming pictures.

To fully appreciate the picturesqueness of Astoria, its belongings and surroundings, requires a visit of several weeks. The view on preceeding page is Astoria looking up the river with Tongue Point in the distance, on which Point Lewis and Clark camped November 27, 1805, and remained several days.

LUMBER INDUSTRY.

The practically inexhaustible supply of timber in Clatsop County, all of which must, of necessity, be brought to Astoria for shipment, either by sea to ocean ports or by rail to the Eastern markets, consists of Douglas fir, more commonly called Oregon pine, cedar, spruce, larch, maple

and hemlock. These varieties are found in a district of several hundred square miles in extent, and within easy access of one or the other of the small rivers which penetrate the interior of the county and empty themselves into the Columbia River at or near Astoria. The quantity of timber in Clatsop County is estimated at 18,500,000,000 feet, worth standing $9,250,000, and sawed into lumber, $130,000,000. With the extension of the railroad into the interior the timber of all the Nehalem valley will be brought to Astoria.

Mr. A. J. Johnson, a forestry expert in the employ of the U. S. Government, and who had charge of the Oregon forestry exhibit at the Pan-American Exposition, gives out the information that Astoria has more feet of merchantable timber tributary to her gateway than any other city in the world. Mr. Johnson's knowledge of the timber resources of the Pacific Coast CANNOT be questioned.

Astoria, with Portland and Sound points, is accorded "common point" rates on lumber and salmon to Eastern markets, and on general merchandise from the East.

SALMON INDUSTRY.

The great industry of Astoria is its salmon fishing, which in season employs several thousand of men and women in catching, canning, labeling and shipping to the markets of the world.

Astoria is the salmon fishing center of the world. Here at the mouth of the Columbia is the only place that the "Royal Chinook" is found. During the open season thousands of fishing boats go out daily with gill nets for this luscious food fish. They are also caught by traps, seines and dip-nets.

A carefully prepared estimate places the 1901 season's pack at 246,000 cases. This on the basis of four dozen pound cans to the case. Beside this about 2500 tons of raw fish, representing 83,000 cases, were handled by the

cold storage plants. These figures show that over 9,800 tons of fish were caught and sold during the season, which at 6 cents per pound, the average price, means over $1,000,000 distributed among the fishermen, beside a large amount that has been expended for labor in handling the catch.

DAIRY INTEREST.

The luxuriant pasturage of Clatsop County enables cows to furnish an abundance of rich milk, with a more than average amount of butter-fat. A modern equipped creamery is operated in the city, furnishing the farmers a ready cash market for their cream, and many of them are preparing to enlarge their dairies and others are preparing to start new dairies. Ever-growing grasses and a mild climate make this County an inviting field for those who understand the business of managing cows.

HEALTH AND CLIMATE.

The air coming from off the Pacific Ocean being at or near the same temperature throughout the year, controls the temperature of the atmosphere in this locality so that in the winter cold weather is unknown and in the summer hot weather is never experienced.

The average mean temperature of 1900, as officially kept by B. D. Johnson, U. S. Observer of the weather bureau, was 55.3°.

This section, owing to its pure air, good water and equable temperature, is absolutely free from all forms of malarial diseases, and persons coming here saturated with the poison of malaria from a residence in a malarial district rapidly recover after a short residence in this locality.

SUMMER RESORTS.

Astoria has splendid seaside resorts within thirty minutes ride from the city, which are visited by thousands of people from the different parts of Oregon, Washington and

Idaho. Six comfortable hotels are open every season for the accommodation of guests, and excellent transportation facilities are afforded. During the summer season the trip from Portland to Seaside, distance 118 miles, can be made in four hours. Cottages and beautiful private homes can be seen in profusion, and the hunting, bathing, fishing and driving is par excellent.

Hotel Gearhart, Gearhart Park, one of the Summer Resorts.

- - - J. M. - - -

Convent of the Holy Names,

- - FOR YOUNG LADIES. - -

Conducted by the.....

Sisters of the Holy Names

.....of Jesus and Mary.

Franklin Avenue, N. E. Corner 16th,
ASTORIA, ORE.

Is advantageously situated in the beautiful seaport City of Astoria. The object of this institution, like all other sister Academies throughout the State, is to impart to young ladies a Christian education, solid, useful and cultured; in a word to teach them all that is taught in the most approved schools.

The moral and intellectual improvement of the pupils is attended to with the greatest solicitude, and the most devoted attention paid to their domestic comfort. Although the pupils are, at all hours, under the watchful care and government of their teachers, the discipline of the school is mild and parental. Special attention is paid to simplicity of dress and manners, and these are made to harmonize with the most ladylike deportment.

No distinction is made in the reception of pupils on account of their religious opinions, and all interference with the convictions of non-Catholics is carefully avoided. Good order, however, requires that all should conform to the general external regulations of the Academy.

Students are examined on entering the Institution and classified according to their proficiency.

Students are received at any time during the year, their term dating from their entry.

day by steamer. Is a thriving and beautiful town of energetic people, whose only law is the Golden Rule. Its population, including surrounding settlements, is about 800. The public spirit of its citizens is shown by the manner in which they support the local paper, and it is safe to say 95 per cent of the entire population are subscribers. The principal industry is salmon fishing. It is here that a large per cent of the Royal Chinook salmon are caught. There are two churches, a school employing three teachers, a shingle mill, fish hatchery operated by the state, several large general mercantile stores, 3 saloons and town hall. No policeman or city jail. When a street needs repairing, a sidewalk to be built or any improvement needed by the community everyone turns out and does his share. It is one of the many delightful summer resorts found about the mouth of the Columbia. Stage daily to Ilwaco, 8 miles distant. Long distance telephone. Mrs. Ellen T. Burrows, postmaster.

SEASIDE, OREGON.

A Most Delightful Summer Resort.

Located on Clatsop Beach, at the mouth of the Ohanna and Necanicum rivers, also the western terminus of the Astoria & Columbia River Railroad.

Has a population during the winter of 500. During the summer from 5000 to 10,000 people throng the beach at this popular little city. During the last season the railroad carried 15,000 people to this famous resort. It has five hotels, numerous stores, Western Union Telegraph, Long Distance Telephone, with four trains in and four out each day.

SURPASSING ANY SUMMER RESORT ON THE NORTHWEST PACIFIC COAST.

As a Commercial point it is a busy little city, having a cannery; a Saw Mill and Box Factory, operated by the Necanicum Spruce Lumber Co., with a total pay roll at present, of over $6000 per month; the supply of spruce timber being almost inexhaustible. There are three churches found here, viz: Methodist, Catholic and Episcopal. A good school, employing three teachers.

RECREATION—Both rivers furnish excellent trout fishing, duck hunting and boating.

The average temperature during summer is 85° and during the winter months it rarely goes below 36°, making it a most delightful place the entire year, and it is fast becoming a refuge from the severe winters of colder states.

CITIZENS AND NEIGHBORS.

None better could be found anywhere. Among the leading business people are to be found the following:

SEASIDE, on the A. & C. R. R., is the most Popular Beach. Sunday Excursion rates $1 for round trip

Charles Wilson, Boat, Steam and Naptha Launch Builder, Shop, 242 Columbia Av. ASTORIA, OREGON.

J. H. Johansen, has a large general store in which can be found almost everything to eat or wear; he is also postmaster. Mrs. Olive McGuire is proprietress of the McGuire Hotel, located within two blocks of the depot and within five minutes walk of the beach. George Gong Kee has a complete grocery store, with a nice restaurant and bakery in connection. Smith & Brooks have among their stock all the finest brands of wines, liquors and cigars. W. J. Eberman takes care of the laundry business through the Troy Laundry. The new Grimes Hotel is located right on the beach and is a charming place to spend the summer vacation. Hubbard & Gregory are an enterprising real estate and insurance firm. Frank Scott serves his customers with the best beer, wines, liquors and cigars to be found, P. A. Lawlor & Co., operate a general store in which can be found anything needed during a stay at the beach. G. M. Mitchell has a neat first-class barber shop. The old Grimes house is under the management of C. C. Grimes, who keeps both furnished and unfurnished rooms. At N. Remillard's will be found books, stationery and souvenir shells. *It will pay you to investigate SEASIDE.*

WARRENTON

AT THE MOUTH OF THE COLUMBIA.

WARRENTON is the vital center of that fine, level, terminal peninsula, where, RIVER, RAILROADS and OCEAN meet, and where the great railroad terminals are located.

....IT IS THE....

Cream of the Warrenton Peninsula.

The City of Warrenton must ever be the very heart of the coming great maritime city. It is the geographical center, the railroad center, the business center, the center of values, and the center of improvements.

The Great Cities are at the Great Harbors.

Warrenton enjoys every natural advantage as a great railroad terminus and seaport. It is located exactly right, and is bound to always derive the chief advantage from the tremendous development of the Columbia Harbor that is now assured.

THE COLUMBIA HARBOR IS THE

Gateway to the Orient,

And Warrenton is the Key to the Commercial Situation.

DIRECTORY BORROWERS

WE RECEIVE many complaints from our patrons to the effect that they are bothered so much by BORROWERS. These parties are not the private citizen nor the stranger in the city, who steps in, looks at the Directory and goes out, but merchants, business and professional men, who need a Directory every day in the year, yet who are too close-fisted to buy one.

These same individuals are the ones that borrow your Directory "just for a minute," which, in the majority of cases, means a day or perhaps a week, unless you remember that they have it and send for it.

These same borrowers will tell the Directory canvasser that he has "no use for a Directory," that he "knows everybody," and, vice versa "everybody knows him."
